Brsk Promotions Terms & Conditions

Free Trial Promotion - 6 Months Free Terms & Conditions

1. To qualify for the “Free Trial Promotion, 6 months free”, you must place a valid order for an in-home installation during the promotion period at www.brsk.co.uk.
2. The promotion period starts when your area opens for pre-orders (usually aligned with when we start the build phase in your area) and ends when we announce pre-orders are closed. We will give at least 7 days before the end of the promotional period.
3. You must have received an email acknowledging receipt that we have your order, stating that you have qualified for the Free Trial Promotion, 6 months free.
4. Your 6 month free trial period starts on the day that The Service is activated – usually the same day that your in-home installation is complete and The Service is live (you can connect to the internet).
5. Your free period runs for 6 billing cycles. A confirmation email will be sent to you when The Service is activated.
6. Your first payment off you card will be due at the beginning of your 7th billing cycle.
7. You can cancel at any time by giving a minimum of 30 days’ notice before your free trial period ends, by going to your Brsk account portal and terminating The Service. For clarity, you must cancel The Service before the end of the 5th month in order not to get charged in advance of month 7.
8. You will receive the BetterNet1000 Broadband Service which has an average upload and download speed of 900mbps, for the duration of the free trial period.
9. After the trial period, The Service will change to the broadband service your chose when you placed your initial order.
10. This promotion should be read in conjunction with our Home Broadband Terms and Conditions.
11. These terms were last updated on 30th April 2021.
